

ND MOULDS

DELIVERING QUALITY & ACCURACY

A venture by

ND ENGINEERING

TRUSTED NAME SINCE

2021

KNOW US

1

Where precision meets innovation in mould manufacturing. With years of experience in the industry, we specialize in creating high-quality moulds that meet the diverse needs of our clients across various sectors, including automotive, consumer goods, and electronics.

Our commitment to excellence is reflected in our state-of-the-art facilities and a dedicated team of skilled engineers and technicians. We utilize advanced technology and the latest manufacturing techniques to ensure that every mould we produce is not only reliable.

BRIEF HISTORY

In the bustling world of manufacturing, ND Molds was a new bird in 2021. With an unwavering commitment to excellence, this dynamic venture of ND Engineering swiftly carved its niche in the competitive molding industry, specializing in the creation of preform molds that embody the pinnacle of quality and accuracy. Harnessing cutting-edge technology and unparalleled craftsmanship, ND Molds has redefined standards with molds that tell a story of innovation and dedication, as the company relentlessly pursues perfection.

Key Moments

2021

Started from acquiring a simple CNC machine back in 2021 and stepped into the world of manufacturing

2022

Introduction to the world of molding happened in this year and with passion we chased this field to deliver the best

2023

With further expansion into the field of molding by purchasing top of the line machinery, we aim for perfect quality

OUR SERVICES

DESIGNING

With our design team, we have an extra edge of convenience for manufacturing process

MANUFACTURING

Every product is manufactured within minimum possible error margin & with highest accuracy

QUALITY

Our output quality is impeccable and we deliver moulds with highest durability & sustainability

MISSION

To offer best design and manufacturing services to our customers, grow our area of expertise by continuous learning and innovations making ND Moulds one of the top choice in mould manufacturing

OUR AIM

With an unwavering commitment to produce top quality output and deliver excellence, we aim meet client requirement. Cutting-edge technology and a strict QC, enables us to push the boundaries of perfection. Our highly skilled team strives for efficiency and productivity. We believe that through transparency and constant improvement, we can reach new heights.

MANUFACTURING

In the below mentioned table we have showcased our manufacturing capabilities:

- **VMC MACHINE – 1200 X 600 X 600 MM (LMW)**
- **CNC MACHINE – 250 X 700 MM (LMW)**
- **CNC MACHINE – 200 X 500 MM (LMW)**
- **CONVENTIONAL LATHE MACHINE**
- **CONVENTIONAL CYLINDRICAL GRINDING MACHINE**
- **CONVENTIONAL DRILL MACHINE**
- **AUTOMATIC BENDSAW CUTTING MACHINE**
- **SURFACE GRINDING MACHINE**
- **EDM MACHINE**
- **PROFILE PROJECTOR**

We are always expanding our inventory and our machinery, do inquire about any of your specific requirements that aren't mentioned

WHY US?

#1

answer to all your Mould related queries. With our best in class machines and our experienced team you get the most efficient and sustainable solution

We have mastered the following areas of our industry with experience and practice knowledge within a short time frame:

- Plastic Mould Designs
- Preform & Jar Moulds
- Changed Mould Parts
- Reverse Engineering (Change Parts)

***DELIVERING QUALITY
IS NOT AN ACT BUT
A HABIT***

Client Satisfaction

Good business relations are build through Trust. And, one of the factors that helps us build that trust is by providing client satisfaction

Tools

At ND MOULDS everyone is determined to build that trust by providing you the best quality output and services with top of the line machinery

Assurance

Once the quality is appropriate, our assembly team will start their procedure while assuring that our product assembly is contained and limited to minimum error tolerance
